The San Antonio Lighthouse for the Blind & Vision Impaired has been serving the San Antonio community since 1933.

Extolled as an icon for training, employing and educating both the blind and vision impaired, it's also a leader in manufacturing for the military and government agencies.

Through its programs and services for individuals from birth on upwards, as well as employment in its manufacturing assembly plant and retail military stores, The Lighthouse is able to realize its mission of empowering the blind and vision impaired.

The Lighthouse employs over 250 blind/low vision individuals and in 2017 provided over 10,000 vocational and independent living rehabilitation services to the San Antonio community.
